

Your presence is requested at

***An Informational and Training Workshop for elected officials and municipal staff***

Friday, August 2, 2019, 10 AM

Village of Bellwood  
3200 Washington Blvd  
Bellwood, IL 60104

The Village of Bellwood Department of Homeland Security & Emergency Management will host a workshop for public officials and department heads on the role of emergency management, hazard mitigation, legal impacts of emergencies, and funding pre- and post-incident.

Meet and speak to representatives from FEMA (Federal Emergency Management Agency), IEMA (Illinois Emergency Management Agency), Cook County Department of Homeland Security & Emergency Management, and neighboring agencies.

Join us and learn more about the role you and your peers play in emergency management, what happens before, during and after a disaster, and how you can put “best practices” in place-- *before* something happens. We look forward to seeing you!

RSVP to Public Information Officer A. Malina: [amalina@vil.bellwood.il.us](mailto:amalina@vil.bellwood.il.us)
